**Re: Consumer Complaint No. CC 2025-9075277 – Rebecca Levinson v. Potomac
Electric Power Company**

Dear Ms. Westbrook-Sedgwick:

Attached please find my Brief in Support of My Formal Complaint pursuant to the Commission's Order issued on May 19, 2025, for filing on the public docket.

Please contact me if you have any questions.

Sincerely,

/s/ Rebecca Barbisch Levinson

Rebecca Barbisch Levinson

)
)

BRIEF IN SUPPORT OF MY CONSUMER COMPLAINT

I am a residential consumer. Pepco (with its parent company Exelon Corp.) is the largest utility in the United States and is the exclusive electric Utility in the District of Columbia. Pepco is regulated by the Public Services Commission (“Commission”).¹ Pepco is legally obligated to comply with the Commission’s Rules, including the Rules set forth in the Utility Consumer Bill of Rights.²

Pepco’s unverified Answer is Pepco’s *fifth written response to the Commission in the last eight months* falsely declaring that Pepco has resolved my consumer complaint. Pepco claims that it “takes it [sic] regulatory obligations seriously.”³ If that were true, Pepco would have responded to the material allegations in my Formal Complaint as required by the Commission’s

¹ On March 23, 2016, the Commission approved Exelon Corp.’s \$6.8 billion merger with Pepco Holdings Inc., creating the largest U.S. power distributor.

² Utility Consumer Bill of Rights is defined in 15 DCMR § 399.

³ Unverified Answer at 4.

Rules.⁴ Instead, Pepco categorically “denie[d] all allegations in the Complaint and move[d] to dismiss this proceeding” – based on nothing more than Pepco’s entirely fabricated contention that I am claiming “that Pepco did not properly read [my] total generation from the solar generation system.”⁵ Pepco knows that I have not made this claim even once in the *eight months* that Pepco, the regulated electric utility, has refused to address my legitimate consumer Complaint. Pepco’s utter disregard for its legal obligations and my rights as a consumer is astounding.

According to Pepco, “[t]here is no other relief the Commission can grant Ms. Levinson as Pepco has already taken the steps to ensure that her billing is accurate (re-programmed the meter and conducting a referee meter test) and paid Mr. Levison [sic] for her excess generation based on the December 2024 totals.”⁶ Pepco’s standard “to ensure that [my] billing is accurate” is self-serving and self-certifying. Pepco’s billing does not comply with the Commission’s Rules set forth in the Utility Consumer Bill of Rights. Pepco has not provided any proof that any bill it has issued is accurate. Pepco simply cannot or will not show how it arrived at the usage I have been billed. This is unlawful and a gross abuse of Pepco’s power as the exclusive electric Utility in the District of Columbia.

Pepco indisputably bears the burden to prove that its billing complies with the Commission Rules in the first instance. Pepco argues that “Ms. Levinson has failed to establish that Pepco’s

⁴ The Commission Rules are clear that “[t]he purpose of the answer is to fully advise the complainant and the Commission of the nature of the defense.” 15 DCMR § 105.5. Further, “[t]he answer shall admit or deny each material allegation in the complaint.” *Id.* § 105.6. Likewise, “[a] written answer to the Complaint shall be filed with the Commission ... setting forth the Utility’s ... position with respect to the allegations contained in the Complaint.” *Id.* § 324.4. Additionally, “[i]f a party is a corporation or association, the pleading shall be signed and verified by an officer or other designated employee.” *Id.* § 114.2. Finally, “[w]hen a confidential or proprietary document is filed, the corresponding public version shall be filed concurrently.” *Id.* § 100.8.

⁵ Unverified Answer at 1, 4.

⁶ Unverified Answer at 6.

remediation of her bills once a billing error was determined is in violation of the law.”⁷ I am a residential consumer, and until Pepco can demonstrate that its billing complies with the Commission’s Rules, this simply is not my burden to bear.⁸

I. Background

On February 21, 2025, I filed a Formal Hearing Complaint detailing the issues I had specifically raised with Pepco at the informal hearing on January 23, 2025, mediated by the Office of Consumer Services (“OCS”).⁹ My 14-page Formal Complaint includes 48 detailed footnotes and cites 47 exhibits that are conveniently identified in a table of exhibits. It has been unbelievably time consuming and extraordinarily burdensome to be required to explain the complex discrepancies in Pepco’s own data, documentation, and written responses, in writing – over and over and over again. I am a residential consumer. I am not being paid for my time and effort, but I refuse to waive my right to accurate and transparent billing from the electric Utility.

On March 25, 2025, Pepco filed its unverified Answer. Pepco did not rebut any of the material allegations raised in my Formal Complaint. Likewise, Pepco did not cite any evidence or include any exhibits to rebut my allegations. Instead, Pepco attached “meter readings” as Exhibit 3 to “show that the meter was programmed incorrectly.”¹⁰

On April 1, 2025, the Commission issued an Order Convening a Virtual Prehearing Conference on April 8, 2025. The Order was clear that “[t]he **parties should be prepared to**

⁷ Unverified Answer at 4.

⁸ Pepco certainly should be able to easily establish that my bills have been issued and are being issued in compliance with the law in response to this Motion.

⁹ This was the first time anyone at Pepco had spoken with me about my consumer complaint originally filed on October 2, 2024. However, because Pepco refused to have anyone with technical knowledge attend the mediation despite OCS’s request, so the mediation was limited to me explaining the ongoing, unresolved, and unexplained discrepancies in Pepco’s billing since Pepco replaced my meter was replaced on the morning of May 21, 2025 – before I had even applied to install a solar system. Formal Complaint at 12-13 n.46.

¹⁰ Unverified Answer at 5 discussing Pepco Exhibit 3.

discuss every relevant aspect of Complainant’s solar generation output and the associated credits pertaining to that output.” The Order left no doubt that “[t]his includes calculations and documentation in support of the parties’ respective positions.” Because Pepco failed to respond to my Formal Complaint on the merits, I had no choice but to spend the entire week preparing a presentation dedicated entirely to demonstrating how Pepco’s own data contradicts Pepco’s baseless claim that it has resolved my concerns.

At the Prehearing Conference, on April 8, 2025, Pepco was not prepared to address any issue raised in my Formal Complaint. I explained how the “meter readings” Pepco proffered in Exhibit 3 proved that Pepco’s billing was not accurate after Pepco reprogrammed my meter on November 17, 2024. I also explained how the “meter readings” in Exhibit 3 proved that the revised billing Pepco issued on November 21, 2024, was not accurate. The Hearing Office ordered Pepco to meet with me to “discuss the complex data issues regarding [my] account” and ordered me to file this brief following that meeting.¹¹

On April 22, 2025, Pepco met with me as ordered, but Pepco continued to refuse to offer any explanation for the discrepancies and anomalies in its own data.¹² At least a half dozen Pepco employees attended the virtual meeting, including Pepco’s counsel, an energy engineer, a meter engineer, a supervisor of engineering, a representative from escalated investigations, and a representative from meter analytics. However, but for a few notable exceptions, the only Pepco representative who even responded to any of the issues I raised was Pepco’s counsel – telling me that Pepco did not have to explain how it (1) calculates the meter reading displayed on my meter,

¹¹ Order dated April 15, 2025 at ¶ 1.

¹² Pepco recorded the meeting but has not yet produced a copy of the recording.

(2) calculates the “informational” meter readings printed on my billing, or (3) calculates the “hourly intervals recorded during [my] billing period.”

I spent over an hour walking through the discrepancies in the “meter readings” in Exhibit 3 and explained how those “readings” proved that my billing was not accurate. I highlighted the trail of digital breadcrumbs Pepco had left in the wake of its falsification of my usage data since my meter was replaced a year ago on May 21, 2024. I showed how Pepco’s billing on my account contradicted Pepco’s claim that its billing errors were due to an error when Pepco reprogrammed my meter for net energy on June 25, 2024.

I explained how the “meter readings” in Exhibit 3 proved that the first revised billing that Pepco issued on 10/4/24 was not because Pepco “observed that [my meter] was not billing for [my] consumption” in October 2024 as it claims in its unverified Answer. Instead, Pepco’s revised billing issued on 10/4/24 is based entirely on the GPC Billing team (1) *manually updating the end date meter reading on my June 2024 pre-solar bill* and (2) *manually updating the start date meter reading for off-grid usage on my July 2024 solar bill*. Those readings should be identical, but the “meter readings” in Exhibit 3 prove that GPC Billing revised the July 2024 bill using the “meter readings” from the second day of the billing period, June 26, and misrepresented them as the June 25 meter readings.¹³ Despite admitting that Pepco had used the wrong meter readings on the revised July 2024 bills issued on 10/4/24 and again on 11/21/24, Pepco still has not issued a third revised July 2024 bill correcting this egregious billing error.

While Pepco did not offer any explanations, Pepco did not deny that the discrepancies in its data existed. Pepco now has actual knowledge that my Formal Complaint is based on these

¹³ The June 2024 billing period ended on June 24 at midnight, which is the same time that the July 2024 billing period began (i.e., June 25 at 12:00 am).

unexplained anomalies in Pepco’s own data, yet Pepco has made no effort to amend its unverified Answer or otherwise narrow the issues raised in my Formal Complaint. Instead, Pepco, the regulated Utility, is sitting idly by, knowing that its inaction unlawfully increases the burden on me, the residential consumer, to once again document Pepco’s egregious violations of the Commission Rules in this brief.

Pepco’s actions are objectively unreasonable. Pepco apparently believes it can’t be held accountable for its egregious and unlawful actions. Pepco is wrong.

II. Pepco’s Billing Does Not Comply with the Utility Consumer Bill of Rights

On May 27, 2025, Pepco issued my May 2025 bill (4/24 to 5/23). As with every other bill Pepco has issued since I established service on July 1, 2023, Pepco’s May 2025 bill is unlawful and violates my rights guaranteed by the Utility Consumer Bill of Rights.

Your meter records electric energy use in hourly intervals. Your bill is the total of all hourly intervals recorded during your billing period.
End and start date kWh meter readings are provided for informational purposes only.
Please visit My Account at pepco.com to view your energy use data.

1. My Pepco bill does not state clearly “Whether the Bill is based upon an actual Meter reading, a Customer Meter reading, or an estimate of usage, if such data is known” as required by Rule 304.7(p).¹⁴

¹⁴

15 DCMR § 304.7(p)

2. My Pepco bill is not based on an “estimated Meter reading or Customer Meter reading,” so Pepco is legally obligated to base my bill “upon an actual Meter reading” pursuant to Rule 304.2.¹⁵
3. My Pepco bill does not state clearly the “actual Meter reading” it was based upon as required by Rule 304.7(a).
4. My Pepco bill does not “state clearly” the “The beginning and ending Meter reading of the Billing Cycle and the difference between the two Meter readings, if such data is available.” Rule 304.7(a).
 - 4.1. My Pepco bill includes meter readings in bold print, but these meter readings are not “actual Meter readings.”
 - 4.2. My Pepco bill includes a statement in small print below the meter readings in bold print, indicating that the “End and start date kWh meter readings are provided for *informational purposes only*.”
 - 4.3. My Pepco bill does not explain where I can find a record of the “actual Meter readings” that Pepco is legally obligated to use as the basis for my bill.
 - 4.4. My Pepco bill does not explain what an “informational” meter reading is or how Pepco calculated these “informational” meter readings.
5. My Pepco bill states in small print “Your bill is the total of all hourly intervals recorded during your billing period.”
 - 5.1. My Pepco bill does not include the “hourly intervals recorded during [my] billing period.”
 - 5.2. My Pepco bill states in small print “Please visit My Account at pepco.com to view your energy use data.”
 - 5.3. Pepco requires that I have access to the internet and an Online Account at pepco.com if I wants to view “all hourly intervals recorded during [my] billing period.”¹⁶
6. In its unverified Answer, Pepco admits that “[w]hile the Portal is a helpful tool, it is not the record that the utility is obligated to use for billing.”¹⁷

¹⁵ 15 DCMR § 304.2.

¹⁶ Pepco apparently imposes this burden on every residential customer in the District of Columbia and Maryland. See <https://www.pepco.com/my-account/my-dashboard/understanding-my-bill/view-sample-bills>.

¹⁷ Unverified Answer at 4.

- 6.1. Pepco has not explained why it is using the Portal to calculate my billed usage when Pepco knows that “it is not the record that the utility is obligated to use for billing.”
 - 6.2. Pepco has not explained what record it believes “that the utility is obligated to use for billing.”
 - 6.3. Pepco has not established that my bills are based on “the record that the utility is obligated to use for billing.
 - 6.4. Based on the Commission Rules, the “record that the utility is obligated to use for billing” is “an actual Meter reading,” but Pepco does not include “an actual Meter reading” on any of my bills.
7. In its unverified Answer Pepco contends that “there is no support for [my] claim” that my “meter must reflect the same reading on the display as [my] bill.”¹⁸
 - 7.1. The mere fact that the Commission Rules allow for “Customer Meter readings” supports my claim and demonstrates the absurdity of Pepco’s contention.
 - 7.2. The “How to Read My Meter” information Pepco provides in the “Understanding My Bill” section of its website explains “[i]f your meter has a digital readout, simply record this number.”¹⁹

III. Pepco’s Unlawful Billing Practices Prevent Me from Verifying the Accuracy My Electric Utility Bills

On April 22, 2025, during my virtual meeting with Pepco, I asked how I could be certain that my billing was now accurate. One of Pepco’s engineers responded and advised me to compare (1) the reading displayed on my meter, (2) my usage data on the Portal, and (3) the meter readings printed on my bill “for informational purposes only” – and to call Pepco’s billing department if there were any discrepancies.

I explained that I had done so on September 30, 2024, after I discovered that Pepco had replaced my usage data on the Portal for the August and September 2024 billing periods with falsified data in the process of issuing those bills – which reduced the excess generation Pepco

¹⁸ Unverified Answer at 5.

¹⁹ See <https://www.pepco.com/my-account/my-dashboard/understanding-my-bill/how-to-read-my-meter>.

credited me by over 1000 kWh. I further explained that the virtual meeting on April 22, 2025, was the first time anyone at Pepco who might have relevant knowledge about my complaint had even been made available to speak with me about my billing concerns – and that took nearly seven excruciating months and an order from the Commission.

Ironically, I filed a complaint with the Commission for assistance in connecting me directly with the internal team at Pepco with sufficient technical knowledge to appreciate the significance of my discovery. I assumed Pepco would be as concerned as I was that the Portal data (that each of my Pepco bills expressly claims is its basis) wasn't secure and could be overwritten during the billing process. Instead, Pepco has done everything in its power to avoid acknowledging this vulnerability, let alone trying to resolve it – including now specifically claiming that the Portal “is not the record that the utility is obligated to use for billing.”²⁰

Before I am subjected to any further burden in this proceeding, Pepco should be compelled to amend its unverified Answer in compliance with Commission Rules and address my allegations on their merits. I guarantee that Pepco can't explain the basis of the May 2025 bill (4/24 to 5/23) that Pepco issued this week (or any other bill Pepco has issued since it allegedly reprogrammed my meter on November 17, 2024) – without admitting that it uses three separate calculations for my off-grid use (one for the meter display, a second for the Portal, and a third for the meter readings provided for informational purposes only).²¹ I know this because these three data points *never* reflect the same value.

²⁰ Unverified Answer at 4.

²¹ Pepco uses three separate calculations for Excess Generation as well but addressing that in this Brief would only serve as an invitation for Pepco to once again avoid responding to my Complaint on the merits. Of course, none of this would be an issue if Pepco billed based on net usage as required by the Commission Rules. Then again, that would preclude Pepco from taking advantage of its ability to receive the excess generation that pads its profits by enabling net metering well before it turns on net billing.

IV. Pepco Has Charged Me for Significantly Higher Off-Grid Use Than I Actually Used Since It Reprogrammed my Meter in November 2024

The May 2025 Bill issued by Pepco this week charges me for 11% more off-grid use than the off-grid “hourly intervals recorded during [my] billing period” – the data source my bill states that it is based upon.

Your meter records electric energy use in hourly intervals. Your bill is the total of all hourly intervals recorded during your billing period.
End and start date kWh meter readings are provided for informational purposes only.
Please visit My Account at pepco.com to view your energy use data.

Pepco charged me for 564 kWh of off-grid use, but the usage data on My Account at pepco.com reflects only 508 kWh of off-grid use.²² My Pepco bill does not explain why Pepco is charging me for 56 kWh more off-grid use than is reflected by the “hourly intervals recorded during [my] billing period.” The reading displayed on my meter at the end of the billing period certainly doesn’t offer any assistance in understanding the basis of my billed usage or the basis of the meter readings “provided for informational purposes only.”

²²

I.e., the total of all hourly intervals recorded during my billing period that are greater than 0.

As shown in the table below, Pepco has charged me for significantly higher off-grid usage than reflected by the hourly intervals recorded during each billing period that Pepco represents my bills are based upon.

	Off-grid End Date Reading	Off-grid End Date Reading	Difference Between Readings	Billed Usage	Off-Grid Hourly Intervals Totals	Billed Usage % Increase	Billed Usage kWh Increase
Dec-24	6555	5968	587	587	553.89	5.98%	33.11
Jan-25	7446	6555	891	891	858.74	3.76%	32.26
Feb-25	7994	7446	548	547	510.24	7.20%	36.76
Mar-25	8439	7994	445	446	402.44	10.82%	43.56
Apr-25	8807	8439	368	368	334.97	9.86%	33.03
May-25	9371	8807	564	564	507.94	11.04%	56.06

Pepco does not have a lawful basis for its artificially inflated billing of my off-grid usage.

V. Pepco Has Been Unlawfully Billing Me Since It Replaced My Meter on May 21, 2024

On May 21, 2024, the last day of my May 2024 billing period, Pepco removed my old meter because it had not displayed a reading since at least December 2023.²³ Pepco asserts that the bad “display did not impact [the old] meter’s functioning,” but I have no way to confirm Pepco’s claim.²⁴ Pepco admits that it did not obtain a meter reading from the old meter when it was removed sometime before noon on May 21.²⁵ Pepco claims this isn’t an issue because my old

²³ I had not yet applied to install solar when Pepco replaced my meter.

²⁴ Unverified Answer at 2.

²⁵ Formal Complaint Ex. 30 at Pepco November 21, 2024 Response.

meter was transmitting until it was removed – which itself serves as an admission that Pepco did not base my May 2024 bill on an “actual Meter reading.”

Your meter records electric energy use in hourly intervals. Your bill is the total of all hourly intervals recorded during your billing period.

End and start date kWh meter readings are provided for informational purposes only. Please visit My Account at pepco.com to view your energy use data.

My May 2024 bill is irregular on its face. The difference between the “End and start date kWh meter readings” that are “provided for informational purposes only” is 852 kWh. However, Pepco billed me for 889 kWh of Total Use. Pepco still hasn’t explained the basis for the May 2024 bill, despite being on notice of this billing error since at least the informal hearing in January 2025. I specifically raised this issue in my Formal Complaint and at the Prehearing Conference. However, when I met with Pepco on April 22, 2025, pursuant to the Hearing Officer’s Order, Pepco’s counsel claimed that he was unaware of any issues with my May 2024 bill. As I explained at the informal hearing, this discrepancy is likely related to Pepco’s failure to include meter readings or the total usage from the new meter it installed before noon on May 21 – the last day of the billing period. However, Pepco refuses to provide the basis for its billing.

Old Meter – May 18 at 12:34 pm

New Meter – May 21 at 12:01 pm

VI. Pepco Has Not Established a Lawful Basis for the Estimated June 2024 Non-Solar Bill (5/22 to 6/24) Pepco Issued

On June 25, 2024, Pepco issued an estimated June 2024 bill for 1781 of Total Use, with a Start Date meter reading on May 22 of 0000 and an End Date meter reading on June 24 of “Unavailable.” Pepco has not explained how my start date meter reading could have been 0000 when Pepco placed my new meter in service before noon a day earlier on May 21 as shown above. Further, Pepco has now repeatedly admitted that it had a meter reading when it issued my June 2024 bill. As such, Pepco did not have a lawful basis for issuing my June 2024 bill as an estimated bill in the first instance.

Your next bill period is scheduled to end on July 24, 2024

On June 26, 2024, I called Pepco at 4:46 pm to verify the shockingly high estimated usage of 1781 kWh. There is no way that we used twice as much energy during the June 2024 billing period than we had in any billing period since I established service on July 1, 2023. However, customer service told me that my billed usage of 1781 kWh was based on an actual meter reading. Pepco explained that the End Date meter reading on my bill of “Unavailable” was because Pepco had printed the bill before the billing system was updated with the actual meter reading.²⁶ This certainly does not qualify as an extraordinary condition that would allow Pepco to issue an estimated bill.²⁷

²⁶ Rule 304.3 allows for an estimated energy Bill “(a) When a Meter is not scheduled to be read, and the Customer Meter reading is not timely reported; (b) When a Meter has not been read due to the inaccessibility of the Meter, extreme weather, or other conditions; or (c) When a Customer’s reading varies significantly from the estimated usage.” 15 DCMR § 304.3.

²⁷ The “other conditions” contemplated by Rule 304.3 are clearly limited by Rule 302.1, which requires Pepco to read my meter “within three (3) Business Days of the scheduled date unless the Meter is inaccessible, extreme weather exists, or in the event of other extraordinary conditions.” 15 DCMR § 302.1. Accordingly, absent extraordinary conditions precluding Pepco’s ability to read my meter for three business days of the scheduled date.

I explained that my meter reading at 10:00 am on June 25 – the morning after the billing period ended – was only 181 kWh.

This photo from June 26, 2024, at 4:46 pm shows that my meter reading was 178 kWh when I called Pepco. Pepco told me that the reading on my meter didn't matter because Pepco does not use the reading on my meter for billing purposes. Pepco "pinged" my meter at 4:53 pm to get the current reading to reassure me that my June bill was accurate and told me that my actual meter was 1879 kWh despite the reading on my actual meter of 178 kWh. At the time, I assumed that Pepco merely didn't display the last digit of the meter reading on my meter. I even made a comment along those lines on the recorded call with Pepco.²⁸

June 26, 2024 at 4:46 pm

VII. Pepco's Claim That the Meter Test Proves That It Corrected the Billing on My Account Is Belied By Pepco's Contention that My Meter Was Not Billing for My Consumption in October 2024

Pepco is trying to blame its egregious billing errors on my solar system operating before Pepco issued Authorization to Operate – even though Pepco enabled net billing after I called GPC Customer Service to ask if my interconnection had been completed because I observed that my

²⁸ I never imagined that Pepco, the regulated electric Utility, considered the reading displayed on my meter entirely irrelevant.

meter reading had decreased from the morning of June 25 to the afternoon of June 26. My estimated Commissioning date on my Interconnection Agreement was June 28 and Pepco told me everything had been set up, so I had no way to know there was an issue. Pepco didn't even use an Interconnection Agreement or Net Metering Agreement that complies with the Commission's Rules. Regardless, I have never asked for any solar generation credit that I am not legally entitled to, I've simply been asking Pepco to explain the basis for its billing on my account. Pepco's continued refusal to do left me with no choice but to file a Formal Complaint asking the Commission to protect my rights as a residential consumer.

Pepco's unverified Answer proves that Pepco is willing to completely contradict itself to avoid responding to my Formal Complaint on the merits. However, Pepco can't be allowed to simply declare that the revised billing it issued on 10/4/24 was because Pepco "observed that [my meter] was not billing for [my] consumption" in October 2024 while simultaneously relying on the Meter test refereed by the Commission on December 12, 2024, as indisputable proof that it is now billing me accurately. Pepco is the exclusive electric Utility in the District of Columbia and cannot avoid its legal obligations simply because it doesn't want to admit that it not only has the ability to manipulate my bills but has repeatedly done so to cover up the egregious billing errors on my account.

VIII. The Revised Net Energy Billing Contract Pepco Filed on May 23, 2025 Is an Express Admission of the Allegations in My Formal Complaint

Pepco failed to inform me that it filed a revised Net Energy Metering Contract this week on May 23, 2025, "to update the contract to be consistent with the provisions in Chapter 9"

requesting that the Commission approve Pepco's proposed revisions.²⁹ This filing serves as an express admission of the allegations in my Formal Complaint and is extremely relevant in light of my requested relief that the Commission order Pepco to honor the terms of the unlawful Net Energy Metering Contract it knowingly entered into with me in June 2024. As explained in my Formal Complaint:

Pepco isn't honoring the terms of our Net Energy Metering Contract – apparently because Commission Rule 15-903.1 “governs the billing practices applicable to participating net energy billing customers receiving SOS generation service during a billing period.”

However, the Commission Rules also require Pepco to “develop a standard contract that implements these rules, which shall be subject to the review and approval of the Commission” and further require that the standard contract is “consistent with the provisions of this chapter...” 15 DCMR § 905.1. Our Net Energy Metering Contract that Pepco executed on 6/4/2024 is Pepco's outdated standard contract from May 2014 even though the applicable Commission's Rules have been revised twice since then.

I specifically request that the Commission waive the requirements of Rule 15-903 and require Pepco to honor the terms of the Net Energy Metering Contract that it executed with me. Commission Rule 15-910 “Waiver” provides that the Commission may “waive any provision of this chapter for good cause.” Pepco is certainly aware of the revisions to the Commission Rules. In fact, I'm pretty sure Pepco itself advocated for these changes to the Commission's Net Energy Metering Rules, but its outdated contract specifically states that I will be billed pursuant to “the Commission's Net Energy Metering Rules adopted in Order No. 15837, issued June 11, 2010.” If the Commission does not waive its rules for good cause shown, Pepco will be rewarded for inducing me to enter into a contract on false pretenses.

Formal Complaint at 8 n.29.

²⁹ Ex. A – Pepco Letter to the Commission re Revised Net Energy Metering Contract, dated May 23, 2025. Pepco does not appear to have filed a Revised Interconnection Agreement that includes [a]ll default EDC required inverter settings profiles will be documented in the interconnection agreements” as required by 15 DCMR § 4002.7.

IX. Conclusion

Because Pepco cannot establish that any of its billing is lawful, I am entitled to a full refund for all off-grid usage billed since I established service on July 1, 2023. Further, Pepco must be enjoined from billing me for any off-grid usage in the future until it is able to establish a lawful basis for its billing on my account. I respectfully request the right to supplement this brief to address any further questions or concerns.³⁰

Respectfully submitted,

By: /s/ *Rebecca Barbisch Levinson*

Rebecca Barbisch Levinson

³⁰ Nothing in this brief is intended as a waiver of any of my legal rights or any of my claims against Pepco. Because Pepco has refused to address my complaint on the merits for eight months, while it continued to unlawfully manipulate the reading on my meter, the “informational” meter readings printed on my bills, and the hourly interval data on the Portal, I cannot possibly brief every issue.

CERTIFICATE OF SERVICE

I hereby certify that a copy of Complainant Rebecca Levinson's Brief in Support of Formal Hearing Complaint (Public) was served on this 29th day of May 2025, on all parties below by electronic mail:

You can help a Pepco customer in need of assistance with their energy bills. Simply pay exactly \$1.00 over your Pepco bill amount and that dollar will be contributed to the Good Neighbor Energy Fund administered by a local 501(c)3 non-profit organization. Amounts over \$1.00 will not be identified as a contribution and will result in a credit to your account. Pepco will match each donation by contributing a dollar to the fund, up to \$100,000.

You can help a Pepco customer in need of assistance with their energy bills. Simply pay exactly \$1.00 over your Pepco bill amount and that dollar will be contributed to the Good Neighbor Energy Fund administered by a local 501(c)3 non-profit organization. Amounts over \$1.00 will not be identified as a contribution and will result in a credit to your account. Pepco will match each donation by contributing a dollar to the fund, up to \$100,000.

Ms. Brinda Westbrook-Sedgwick
Commission Secretary
Public Service Commission
of the District of Columbia
1325 G Street NW, Suite 800
Washington, DC 20005

Re: Formal Case 1050

Dear Ms. Westbrook-Sedgwick:

Section 905.1 of Title 15 of the District of Columbia Code of D.C. Municipal Regulations provides that the Electric Company shall develop a standard contract that implements the [Net Energy Metering] rules, which shall be subject to the review and approval of the Commission. Such standard contract shall be consistent with the provisions of this chapter, as well as with the Energy Policy Act of 2005 and the Commission's Interconnection Rules under Chapter 40 of Title 15 of the DCMR. Therefore, Potomac Electric Power Company ("Pepco") files this revised Net Energy Metering Contract to update the contract to be consistent with the provisions in Chapter 9 and requests that the Commission approve Pepco's proposed revisions. Upon the Commission's approval of Pepco's proposed revisions, the revised Net Energy Metering Contract will apply to new customers executing the updated Contract.

Please feel free to contact me if you have any further questions.

Sincerely,

/s/ *Taylor W. Beckham*

Taylor W. Beckham

DC CUSTOMER NET ENERGY METERING
CONTRACT**

Qualifying facility of 1000 KW or less

Customer Name: _____

Customer Pepco Acct. #: _____

Customer Address: _____

Customer Telephone Number: _____

Customer E-Mail Address: _____

Generator Manufacturer: _____

Model: _____

Energy or Source Type (e.g. photovoltaic, wind, microturbine, fuel cell, cogeneration):

Nameplate rating AC and DC (KW): _____

Location: _____, District of Columbia

This Contract, entered into as of the date _____ is between the Potomac Electric Power Company (the Company; Pepco), and _____ (the Customer) located at _____,

District of Columbia, for the Net Metering and interconnected operation of the Customer's generating equipment and the Company's electric system commencing on _____.

WHEREAS, pursuant to Section 905.1 of Title 15 of the District of Columbia Municipal Regulations (DCMR), Pepco is required to have this standard Net Energy Metering Contract applicable to Customer-Generators who meet the requirements set forth in D.C. Code § 34-1501 (15) and 1518 and applicable tariffs, orders and regulations of the Public Service Commission of the District of Columbia; and

WHEREAS, the Customer has represented to the Company that it meets those requirements.

In consideration of the agreements hereinafter set forth, the parties agree as follows:

ARTICLE I: DEFINITIONS

The following terms shall have the following meanings under this Contract:

"Billing Period" or "Billing Month" is the period of time (approximately thirty (30) days) between the recording of metered energy delivered to and received from the Customer's Generation Facility.

"Capacity" is the maximum output, expressed in kilowatts, of an electric generator under specific conditions designated by the manufacturer, as indicated on a nameplate physically attached to the generator.

"Commission" is the Public Service Commission of the District of Columbia.

"Competitive Electricity Supplier" means a person, including an aggregator, broker, or marketer, who generates electricity; sells electricity; or purchases, brokers, arranges or markets electricity for sale for retail customers: The term excludes the following: (A) Building owners, lessees, or managers who manage the internal distribution system serving such building and who supply electricity solely to occupants of the building for use by the occupants; (B) (1) Any person who purchases electricity for its own use or for the use of its subsidiaries or affiliates; or (2) Any apartment building or office building manager who aggregates electric service requirements for his or her building or buildings, or who does not: (a) Take title to the electricity; (b) Market electric services to the individually-metered tenants of his or her building; or (c) Engage in the resale of electric service to others; (C) Property owners who supply small amounts of power, at cost, as accommodation to lessors or licensees of the property; and (D) A consolidator.

"Customer-generator" means a residential or commercial customer that owns (or leases or contracts) and operates an electric generating facility that: (a) has a capacity of not more than 1000 kilowatts; (b) uses renewable resources, cogeneration, fuel cells, or microturbines; (c) is located on the customer's premises; (d) is interconnected with the Electric Company's transmission and distribution facilities; and (e) is intended primarily to offset all or part of the customer's own electricity requirements.

"Customer's Generation Facility" is all of the Customer's plant and equipment, including the Customer's generator, inverter, storage devices, and Interconnection Equipment, located on the Customer's side of the Point of Delivery.

"Customer's Interconnection Equipment" is all equipment and facilities owned by the Customer and located on the Customer's side of the Point of Delivery installed to interconnect and deliver energy to the Company's system, including but not limited to connection, switching, transformation, protective relaying and safety equipment.

~~"Eligible customer generator" means a customer generator whose net energy metering system for renewable resources, cogeneration, fuel cells, and microturbines meets all applicable safety and performance standards.~~

~~"Full Retail Distribution Rate" means the per kilowatt hour distribution charges applicable to the net energy billing customer during the billing period.~~

~~"Full Retail Transmission Rate" means the per kilowatt hour transmission charges applicable to the net energy billing customer during the billing period.~~

~~"Generation value" means the product of the applicable SOS kilowatt-hour rate times the number of kilowatt-hours consumed and/or supplied, during the time period(s) associated with such usage and/or supply.~~

"Net energy metering" means the difference between the kilowatt-hours consumed by a customer-generator and the kilowatt-hours generated by the customer-generator's facility over any time period determined as if measured by a single meter capable of registering the flow of electricity in two directions.

"Net energy billing" means a billing and metering practice under which a customer-generator is billed on the basis of net energy over the billing period.

"Point of Delivery" is the location where the Customer's Interconnection Equipment and the Company's system are connected.

"Premises" is the Customer's building or part of a building with its appurtenances (as grounds) where the Customer takes service from the Company under a unique account number.

"Prudent Electrical Practice" means those practices, methods and equipment, as changed from time to time, that are commonly used in prudent electrical engineering and operations to operate electric equipment lawfully and with safety and dependability and that are in accordance with the National Electrical Code, the Institute of Electrical and Electronic Engineers Code or any other applicable Federal, State and Local government codes, and the Company's construction standards and the ~~Commission's Interconnection Rules under Chapter 40 of Title 15 of the DCMR, the~~ "District of Columbia Small Generator Interconnection Rules" ("DCSGIR"), ~~Chapter 40 of Title 15 of the DCMR, as amended from time to time.~~

"Renewable Resources" means one of the following sources of energy: solar, wind, tidal, geothermal, biomass, hydroelectric facilities or digester gas.

"Standard Offer Service Provider" means a provider of standard offer service chosen pursuant to Chapter 29 of ~~Title 15 of the DCSGIR the Commission's rules.~~

ARTICLE II: QUALIFICATIONS

It is the purpose of this Contract to set forth rates and conditions for interconnected, parallel operation of a Customer Generator. ~~is owned and operated electric generating facilities (Customer Generation Facility) using Renewable Resources, cogeneration, fuel cells or microturbines. This Contract is not available for facilities having a total generating capacity of more than 1000 kW at a single Premises. A Customer's Generation Facility must be located on the Customer's Premises and must be intended primarily to offset all or part of the Customer's own electricity requirements.~~ Service is provided under this Contract subject to the provisions listed below.

For the interconnection of a Customer Generation Facility, the Company and the Customer shall follow the interconnection procedures set forth in the DCSGIR District of Columbia Small Generator Interconnection Rules, Chapter 40 of Title 15 of the DCMR, the "District of Columbia Small Generator Interconnection Rules" prior to entering into this Net Energy Metering Contract.

ARTICLE III: TERM

The term of this Contract shall commence on _____ and shall extend initially for one year and thereafter on a monthly basis, unless terminated pursuant to the terms herein.

ARTICLE IV: NET ENERGY METERING

Service provided under this Contract is billed under the Customer's normally applicable District of Columbia Schedules "R", "AE", "RTM", "GS ND", "GS LV", "GS 3A", "GT LV", "GT 3A", and "GT 3B" for Customer-Generators who meet the requirements set forth in D.C. Code § 34-1501 (15) and 1518; ~~this e-Company's Standard Net Metering Contract; and the Commission's applicable orders and regulations, including the Net Energy Metering Rules, as amended from time to time, Chapter 9 of Title 15 of the DCMR adopted in Order No. 15837, issued June 11, 2010.~~

Net Energy Billing applies only to kilowatt-hour usage charges. Net energy billing customers taking service under Rider NEM are responsible for all other charges applicable to the customer's rate class and recovered through fixed amounts or over units other than kilowatt-hours, including customer and/or demand charges as applicable.

The application of this Rider to Schedules "RTM", "GT LV", "GT-3A", and "GT-3B" shall be on the basis of energy inflow or outflow during each Time of Use pricing period rather than on the total monthly energy registration.

Billing for Net Energy Metering Customers of Competitive Electricity Suppliers with Competitive Suppliers

Monthly Generation and Transmission Service – Credits or charges shall be calculated by the Competitive Electricity Supplier at the rate specified in the agreement between the Customer- Generator and the Competitive Electricity Supplier, in

| accordance with 15 DCMR 902.1, as amended or replaced from time to time.

Monthly Distribution Service Charges – If the meter has registered net inflow of electricity for the billing month, the Customer-Generator shall be billed for the net inflow at the applicable full retail rate for Distribution Services, in accordance with 15 DCMR 902.2 as amended or replaced from time to time.

If the meter has registered net outflow of electricity for the billing month, the Customer-Generator shall be credited in accordance with 15 DCMR 902.3 as amended or replaced from time to time. ~~and the Customer's generating facility has a capacity of 100 kilowatts or less, a dollar value credit shall be calculated by applying the full retail rate for Distribution Service excluding surcharges to the net outflow. This credit shall be applied to the next monthly bill and to subsequent monthly bills, if necessary, until fully exhausted.~~

~~If the meter has registered net outflow of electricity for the billing month, and the Customer-Generator's generating facility is greater than 100 kilowatts in size, there shall be no credit for Distribution Service for the net outflow.~~

Billing for Net Energy Metering Customers with Standard Offer Service (SOS)

Monthly Generation Service – If the meter has registered net inflow of electricity for the billing month, the Customer-Generator shall be billed for the net inflow ~~at the applicable SOS rate for Generation Service~~ in accordance with 15 DCMR 903.2 and 903.4 as amended or replaced from time to time.

If the meter has registered net outflow of electricity for the billing month, the Customer-Generator shall be credited in accordance with 15 DCMR 903.3 as amended or replaced from time to time. ~~a dollar value credit shall be calculated by applying the full SOS rate for Generation Service to the net outflow. This credit shall be applied to the next monthly bill and to subsequent monthly bills, if necessary, until fully exhausted.~~

Monthly Transmission and Distribution Service Charges – ~~If the meter has registered net inflow of electricity for the billing month, the Customer-Generator shall be billed for the net inflow at the applicable full retail rates for Transmission and Distribution Services.~~

~~If the meter has registered net outflow of electricity for the billing month, and the Customer's generating facility has a capacity of 100 kilowatts or less, a dollar value credit shall be calculated by applying the full retail rate for Transmission and Distribution Service excluding surcharges to the net outflow. This credit shall be applied to the next monthly bill and to subsequent monthly bills, if necessary, until fully exhausted.~~

~~If the meter has registered net outflow of electricity for the billing month, and the Customer-Generator's generating facility is greater than 100 kilowatts in size, there shall be no credit for Transmission and Distribution Service for the net outflow.~~

ARTICLE V: INTERCONNECTED EQUIPMENT

The Customer-Generator is responsible for all costs associated with the installation

and connection of its Customer's Generation Facility and Customer's Interconnection Equipment~~generating equipment~~. The Customer-Generator shall provide and maintain in good working order automatic protective equipment in compliance with the Institute of Electrical and Electronics Engineers, Inc.'s IEEE Standard 1547 ("IEEE 1547") and Sections 4002-4008 of the DCSGIR. The Company shall conduct the appropriate Level

of Review of the automatic protective equipment in accordance with Sections 4004- 4007 of the DCSGIR to determine whether such equipment is fit for use with Pepco's system.

ARTICLE VI: INTERCONNECTED OPERATION

Interconnection with the Company's system requires the installation of protective equipment. A Customer's Generation Facility must be in compliance with IEEE 1547 and the DCSGIR to receive Net Energy Metering service under this Contract. The Customer's equipment must be installed and configured in accordance with IEEE 1547 and Sections 4002-4008 of the DCSGIR to ensure that parallel operation ceases per the IEEE 1547 and DCSGIR requirements during Company system outages affecting the Customer's location. The Customer's Generation Facility must meet the applicable requirements of the National Electrical Code and the applicable requirements of the applicable standards issued by the ~~Institute~~ institute of Electrical and Electronic Engineers and the Underwriters Laboratories.

If the Customer fails to comply with any requirement of this Article of the Contract, the Company may terminate the Customer's service from the Company's electric system. In this event, the Customer will be provided with an opportunity to enter into a new net metering contract by (1) providing the Company with a notarized statement explaining the cause of the violation and evidence that the cause of the initial violation has been remedied in such a manner as to prevent its recurrence, including copies of all inspections performed on the Customer's Generation Facility; (2) fully re-qualifying with all the provisions of the Commission's then applicable Net Energy Metering Rules and the Standard Net Energy Metering Contract; and (3) fulfilling any reasonable requirements established by the Company to ensure that the Company's system is adequately protected from future violation of the Article. If the Customer and Pepco are unable to resolve any disputes as to whether the Customer has met each of the requirements to enter into a new Net Energy Metering Contract, the Customer may file an informal complaint with the Commission.

ARTICLE VII: METERING

The Company shall furnish, install, maintain and own all metering equipment needed for measurement of the energy supplied and received. The Company will provide one or more meters capable of "Net Energy Metering", i.e. a meter that can register the flow of energy both from the Customer to the Company (out-flow) and from the Company to the Customer (in-flow),

ARTICLE VIII: ACCESS

Throughout the term of this Contract, the Customer-Generator shall provide the Company access to the Customer's Generation Facility and Customer's Interconnection Equipment in accordance with either ~~Please see~~ Access under the Level 1 Interconnection Request Application Form and Agreement or Right of Access under the Level 2-4 Standard Agreement for Interconnection of Small Generator Facilities of the DCSGIR, as applicable which are applicable to your generating facility based on its level of review.

ARTICLE IX: CONTINUITY OF SERVICE

Please see Disconnection under the Level 1 Interconnection Request Application Form and Agreement or Temporary Disconnection under the Level 2-4 Standard Agreement for Interconnection of Small Generator Facilities of the DCSGIR, which are applicable to your generating facility based on its level of review.

ARTICLE X: GOVERNMENTAL AUTHORIZATIONS

The Customer-Generator shall obtain all governmental authorizations, licenses and permits required for operation of the Customer's Generation Facility and Customer's Interconnection Equipment and shall maintain all such required governmental authorizations, licenses and permits required for the Customer's Generation Facility during the term hereof this Contract. The Customer shall provide copies of any such authorizations, permits and licenses to the Company in compliance with Chapter 40 of Title 15 of the DCMR, the DCSGIR.

ARTICLE XI: INDEMNIFICATION

XI.1. Level 1 Indemnification

The parties shall at all times indemnify, defend, and save the other party harmless from any and all damages, losses, claims, including claims and actions relating to injury to or death of any person or damage to property, demand, suits, recoveries, costs and expenses, court costs, attorney fees, and all other obligations by or to third parties, arising out of or resulting from the other party's action or inactions of its obligations under this agreement on behalf of the indemnifying party, except in cases of gross negligence or intentional wrongdoing by the indemnified Party.

XI.2. Level 2 through 4 ("Level 2-4") Indemnity

XI.2.1 This provision protects each Party from liability incurred to third parties as a result of carrying out the provisions of this Agreement. Liability under this provision is exempt from the general limitations on liability found in Article 6.2 of the Level 2-4 Standard Agreement for Interconnection of Small Generator Facilities for the DCSGIR.

XI.2.2 The Parties shall at all times indemnify, defend, and hold the other Party harmless from, any and all damages, losses, claims, including claims and actions relating to injury to or death of any person or damage to property, demand, suits, recoveries, costs and expenses, court costs, attorney fees, and all other obligations by or to third parties, arising out of or resulting from the other Party's action or failure to meet its obligations under this Agreement on behalf of the indemnifying Party, except in cases of gross negligence or intentional wrongdoing by the indemnified Party.

XI.2.3 Promptly after receipt by an indemnified Party of any claim or notice of the commencement of any action or administrative or legal proceeding or investigation as to which the indemnity provided for in this Article may apply, the indemnified Party shall notify the indemnifying Party of such fact. Any failure of or delay in such notification shall

not affect a Party's indemnification obligation unless such failure or delay is materially prejudicial to the indemnifying Party.

XI.2.4 If an indemnified Party is entitled to indemnification under this Article as a result of a claim by a third party, and the indemnifying Party fails, after notice and reasonable opportunity to proceed under this Article, to assume the defense of such claim, such indemnified Party may at the expense of the indemnifying Party contest, settle or consent to the entry of any judgment with respect to, or pay in full, such claim.

XI.2.5 If an indemnifying Party is obligated to indemnify and hold any indemnified Party harmless under this Article, the amount owing to the indemnified person shall be the amount of such indemnified Party's actual loss, net of any insurance or other recovery.

ARTICLE XII: ASSIGNMENT

This Contract shall not be assigned, pledged or transferred by either party without the written consent of the non-assigning party, which consent shall not be unreasonably withheld. All assignees, pledgees or transferees shall assume all obligations of the party assigning the Contract. If this Contract is assigned without the written consent of the non-assigning party, the non-assigning party may terminate the Contract.

ARTICLE XIII: BREACH; TERMINATION

Except for termination of this Contract pursuant to the second paragraph of Article VI, if the Customer at any time fails to meet any of the other requirements set forth in this Contract, Pepco may immediately terminate the Contract. The Company shall not be liable to the Customer for damages of any kind resulting from a termination pursuant to this paragraph.

ARTICLE XIV: WAIVER

Any waiver at any time by either party of its rights with respect to a default under this Contract, or with respect to any other matters arising in connection with this Contract, shall not be deemed a waiver with respect to any subsequent default or other matter.

ARTICLE XV: MODIFICATION

Except as provided in Article XVI, nNo modification to this Contract shall be valid unless it is in writing and signed by both parties hereto.

ARTICLE XVI: APPLICABLE LAWS

This Contract is made in accordance with the laws of the District of Columbia and shall be construed and interpreted in accordance with the laws of the District of

Columbia. The provisions of this Contract are subject to the effective Net Energy Metering rules of the Commission then in effect. In the event of a conflict or inconsistency between the terms of this Contract and the Commission's then effective Net Energy Metering Rules, the Net Energy Metering Rules shall govern, and the terms of this Contract shall be deemed automatically to have been amended to comply with the Net Energy Metering Rules, are applicable to this Contract.

ARTICLE XVII: INTEGRATION

The terms and provisions contained in this Contract between the Customer and the Company constitute the entire Contract between the Customer and the Company for Net Energy Metering and shall supersede all previous communications, representations, or agreements, either verbal or written, between the Customer and the Company regarding Net Energy Metering.

ARTICLE XVIII: INTERPRETATION

If any inconsistency exists between any provision in Articles I through XVII of this Contract, Pepco may in its sole discretion choose which provision shall control.

ARTICLE XIX: SEVERABILITY

The invalidity of any provision of this Contract shall not affect the validity or enforceability of any other provision set forth herein.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed, all as of the day and year first above written.
